Lisa Maurice - Havana Committee

Bummed I missed it. How did it go? 🌞
Any key takeaways...

Just work being done in the background to have RC resign themselves from the contract. Otherwise we will weigh up the financial loss/gain of leaving it ourselves and make the decision

Once that has been decided everything else will fall in place with energy tender, cleaners, other contracts and so on.

John E had left unfortunately (hope he joins back) but the CCTV tender he was looking after has been handed over

Gentlemen please correct me but that's my take away
